## RESEARCH STUDY – PSYCHOLOGY MASTERS STUDY

Anyone willing to assist with a UKZN psychology Masters Study, please contact Rayne:

### RESEARCH STUDY:

An exploration of the experiences of South African healthcare workers practicing in the COVID-19 context

- This study seeks to gain an in-depth understanding of the experiences of healthcare workers that have directly cared for and treated COVID-19 patients.
- Participants will be interviewed via email.
- The study may involve the following risks and/or discomforts: when healthcare workers are sharing their experiences of practicing during COVID-19, this may bring about various negative emotions and having to relive potentially traumatic experiences. (If participants experience emotional distress as a result of the interview, appropriate psychological services will be recommended.)
- The research will provide no direct benefits to the participants.
- Your participation is likely to help us gain insight into the lived experiences of healthcare workers and gain a better understanding of the unique challenges that our South African context presents.
- Your participation is entirely voluntary and you may withdraw from the research process at any stage without incurring any negative consequences.
- In order to protect both the participant and hospitals, your identity and the hospital to which you are associated with will remain anonymous.

If you are interested in participating in this research study or have any further questions, please feel free to contact me:

## 2022 SCM TRAVEL FUNDING

- Approval is subject to the availability of funds
- The applicant must complete all sections and supply all the supporting documentation by the stipulated deadline
- An applicant may not receive funding two years in a row to ensure a degree of fair and equitable distribution
- To qualify, the applicant must be presenting a paper. Evidence must be provided of acceptance upon submission of the application.
- A maximum of R10,000 will be awarded for domestic travel, and a maximum of R20,000 will be awarded for international travel per person
- The use of the funds must be in accordance with UKZN Financial policies and procedures and be directed through the School Finance Office. Before incurring any expenditure, please engage with the School Finance Office via [scmtravel@ukzn.ac.za](mailto:scmtravel@ukzn.ac.za)
- Pre-approval is essential, i.e., that you have gone ahead and incurred expenses before approval is granted will not be a factor in our decision, and you will have to accept the risk that you may not be reimbursed
- There will be no transfer of funds to another cost center. For audit purposes, expenditure has to take place against the School cost center. The only exception to this is the payment of the registration fee.
- Funds have to be spent before 30 Nov of the year in which the award is made. There will be NO carryover of funding from one year to the next.
- Should an applicant be awarded, for example, R10,000 and only use R8,000, the balance of R2,000 will be reallocated by the School to assist another applicant
- Successful applicants will be required to submit an abstract to the College of Health Sciences Research Symposium and participate in the event if selected. Further information concerning this will be provided in the award letter.
- Feedback of the congress proceedings must be presented to the relevant department within three months of your return and evidence of such feedback (e.g., a letter from HOD/discipline academic co-ordinator confirming feedback) to be submitted to: [scm\\_conf\\_fund@ukzn.ac.za](mailto:scm_conf_fund@ukzn.ac.za)

Applications are welcome for all types of conferences.

**NB: All applications must be submitted no later than the 18<sup>th</sup> of March 2022.**
