## NEW FCA II COORDINATOR

The department would like to thank Dr Ushir Jaganath for accepting the joint management of the FCA Part 2 portfolio together with Dr Alexa de Castro from January 2023.

## PROCEDURES DOCUMENT FOR BIostatisticians

The Biostatistics Unit is in the Discipline of Public Health Medicine in the School of Nursing and Public Health. The aim of the Unit is to support the research function of the University by providing Teaching and Learning, Research, and Biostatistical Support Services. The Unit supports academics and students with their research, and the nature and extent of the research should be such that it would result in being published in an accredited journal.

The unit mainly offers biostatistical support services to academics and students in the College of Health Sciences. Currently, there are four statisticians who provide biostatistical support services through online and physical consultations.

### Booking a Consultation

An appointment to see a biostatistics consultant can be made using an online booking system (via this link:

<http://my.setmore.com/bookingpage/f3dbcb01-8d3d-4a3f-880a-0029c5273367>).

Note appointments can only be made via the online booking system and not directly with the consultants. 1-hour slots are available Monday-Friday 9am-5pm, with a maximum of one slot per individual per week. Please include a short description of the purpose/requirements of each biostatistical support consultation in the booking form (under "Comments"). Academics and students should make appointments with their UKZN emails, instead of their personal emails.

Consultations are conducted online since the COVID era;

**NB:** It is mandatory that academics and students wishing to make an appointment for a biostatistics

consultation must first have completed the first of the online biostatistics modules via UKZN learn (Introductory Biostatistics, Part 1: <https://learn2022.ukzn.ac.za/user/view.php?id=1704&course=19040>)

They must produce a proof or certificate of course completion before making a statistical consultation. This course is free and self-enrollable on Moodle.

**We also encourage researchers to view the following videos prior to consulting Data capturing in SPSS:**

**Addressing problems experienced with biostatistical support services**

If there are any problems with the biostatistical support, please report firstly to Dr Boikhutso Tlou ([Tlou@ukzn.ac.za](mailto:Tlou@ukzn.ac.za)) in writing. If not resolved then to the HOD of Public Health Medicine Prof Saloshni Naidoo ([Naidoos71@ukzn.ac.za](mailto:Naidoos71@ukzn.ac.za)), and then to the DEAN of SONPH Prof Anna Voce ([Voceas@ukzn.ac.za](mailto:Voceas@ukzn.ac.za)).

## FCA II REFRESHER COURSE - JHB 14 - 18 NOVEMBER

## JOKE OF THE DAY

### Joke of the Day

"Do you believe in life after death?"

the boss asked one of his employees.

"Yes, Sir," the new recruit replied.

"Well, then, that makes everything just fine,"

the boss went on.

**"After you left early yesterday to go to your grandmother's funeral, she stopped in to see you."**
