## SMC APPRECIATION NOTE DR ZANE FARINA

The School of Clinical Medicine would like to acknowledge Dr Farina for his contribution towards the development of the doctor's lounge at Grey's Hospital. As a member of the PMB Medical School subcommittee, Dr Farina has always been looking for opportunities of wifi connectivity and shared spaces for medical staff at Grey's Hospital.

Dr Farina played a crucial role in the planning for lounge areas for doctors at Grey's with those who understood staff movements in the hospital and where these lounges had to be placed to improve the sense of community amongst doctors and staff. The Doctor's lounge initiative pioneered by Prof Dlova for hospitals was an obvious win for Dr Farina and fully supported it.

According to Dr Farina, the Pmb complex is an integral part of UKZN teaching programs for both undergraduates and post graduates. Given the physical distance of the hospitals from Pmb campus and the obvious separation from Durban makes it difficult to view the hospital as part of the university structures. He therefore had to fully advocate and support ideas that would bring resources that would support and better lives of clinical staff based in hospitals. He therefore facilitated engagements over sites and locations of social spaces for all doctors working at PMB hospitals.

Thank you, Dr Farina, for your contribution towards the improvement of UKZN facilities and infrastructure in the PMB Complex. -

**Dr Zane Farina**

Head Clinical Department: Anaesthesia (Grey's Hospital)

Deputy Head: Clinical Services- Anaesthesiology and Critical Care (UKZN)

The School of Clinical Medicine would like to acknowledge Dr Zane Farina for his contribution towards the development of the doctor's lounge at Grey's Hospital. As a member of the PMB Medical School subcommittee, Dr Farina has always been looking for opportunities of wife connectivity and shared spaces for medical staff at Grey's Hospital.

The Doctor's lounge initiative pioneered by Prof Nozza Dlova for hospitals was an obvious win for Farina and fully supported it.

According to Farina, the Pietermaritzburg complex is an integral part of UKZN teaching programs for both undergraduates and post graduates. Given the physical distance of the hospitals from Pietermaritzburg campus and the obvious separation from Durban makes it difficult to view the hospital as part of the university structures. He therefore had to fully advocate and support ideas that would bring resources that would support and better lives of clinical staff based in hospitals. He therefore facilitated engagements over sites and locations of social spaces for all doctors working at PMB hospitals.

Thank you, Dr Farina, for your contribution towards the improvement of UKZN facilities and infrastructure in the PMB Complex. - Prof Nozza Dlova
