MEPA COURSES 2022

Managing Emergencies in Paediatric Anaesthesia, One for Trainees/Registrars and one for Consultants **Saturday, 19th November 2022 and Sunday, 20th November 2022**

The SMART Centre of the Dpt. of Anaesthesiology and Critical Care is offering this one-day Paediatric High Fidelity Simulation Workshop at IALCH.

There will be two consecutive courses held, one on Saturday, 19th of November 2022 and one on Sunday, 20th of November. One course will be for Specialists and the other one for Registrars/M.O.s.

Most of you will already know that MEPA is a very 'hands on' practical simulation workshop evolving around emergencies in Paediatric Anaesthesia. It was designed for any Anaesthetist caring for Paediatric patients, frequently or occasionally, and will improve your technical and non-technical skills during the management of various emergencies encountered in the peri-operative care of our children.

Please note that participation on this course will once again become a requirement for registrars to be signed off to write their Part 2 examination.

Allocations will be made on a 'first come-first serve' basis and the course is free of charge. Tea and lunch will be provided by the Department.

If you would like to participate as a candidate, please email (kampik@ukzn.ac.za) for a booking.

Please indicate on which day you are available. The decision which day will be for consultant and which one for registrar training will be taken from the responses received.
